

Letter of Intent

I am interested in being a Justice because I wish to be more involved in my community. Being part of student government is a way for me to have a voice on my campus, for both other students and myself. I would like to be in a position of leadership to make Bakersfield College a better school with a very active government. Bakersfield College has a student government for just that reason. Student governments are important because they allow for a better experience for the students on campus. They allow students to fix issues and work at a state level for a better education and overall college experience. I am qualified for this position because I want the best for Bakersfield College. I am a very good listener and communicator, giving me the tools I need necessary to be in a position of student government. I am also a very hard worker, and I do the things I say I will do.
