

Letter of Intent

Jonathan A. Bong

Bakersfield College

Jul. 23, 2020

I feel a sense of urgency and I get very excited at the thought of putting online events on for my fellow students. I have coordinated on discord and other media platforms with different guilds to host online events. While in the Navy I coordinated venues, speakers, free merchandise from businesses and food provided inexpensively to free for hundreds of sailors and their families. Bakersfield's student government is to provide a platform between Bakersfield College and its students interests. I want to strengthen the bridge to the point that any student would feel comfortable sending a message or asking during a video chat. I want to draw out the hidden opinions that students might feel aren't important. I have drafted a monthly online system with one video conference once a week with four rotating themes.

V/r,

Jonathan Bong
