---

I am incredibly passionate about executing creative challenges and tasks. I love being able to bring a thought to life through design and attention to detail. I believe inspiration can be found in everyday and unlikely places. I work great under pressure and deadlines. I believe being a visual artist provides the innovative advantage of finding solutions to unexpected obstacles.

My creative experience has helped me develop a sharp eye for creative approaches for a variety of projects varying from design consultations to mural projects. I have had the opportunity to serve my community by collaborating with local and international organizations. I believe my experiences can help me succeed in participating in BC's student government. Student Government is important in order to maintain student organization and student morale. I believe student government is the foundation of keeping students motivated and helping them find their place within college and to develop personal relationships.

I am a highly motivated individual who is eager to contribute to the success of my clients and team.

I am confident that my abilities and experience make me an ideal candidate for this creative role and I look forward to discussing my qualifications further in the interview process.

Thank you for your time and consideration and I look forward to hearing from you.

**Best Regards**

Juliana Gonzalez
