## **To Bakersfield College Student Government Association;**

I am grateful for the chance to apply for the Director of Finance position at Bakersfield College Student Government Association. My approach to financial management is to provide sound financial direction to ensure confidence and growth within the BCSGA. My interest in this position is to gain more experience in the business field, and to further my knowledge on how business is conducted. Bakersfield College has a student government to help make students apart of the decisions that will impact them directly. College government grants students the opportunity to gain experience and develop skills that will aid them in their future careers. I am a self-starter, great when working with others, and reliable. These personality traits are helpful when working with other directors and positions within the student government. I am sociable, outgoing, and honest, which helps with meeting new people and making a cohesive environment. I believe that with these skills I can become successful in the position of Director of finance. I look forward to discussing my qualifications and skills.

**Sincerely,**

**Jacob Palmbach**
