To whom it may concern,

Greetings.

My name is Emmanuel Limaco. I am a full-time student of Bakersfield College, currently pursuing a degree in the Engineering field. I am 31 years of age and have had many experiences which have shaped me into the person that I am today. I also have a personal and cultural background very different from most students. For these and other reasons, I believe that I am able to lend a different perspective to the Bakersfield College Student Government Association and represent a different class of students. To date, I have taken classes and programs designed to promote leadership and professional excellence, as well as communication-centered classes. I have also continued to be actively involved in several Student Organizations on campus such as M.E.Ch.A. and the A.A.S.U., while serving the Student Community as a coordinator for the Renegade Pantry. The skills I have acquired, along with the skills I continue to build upon, have been helpful in my educational progression, and I believe they will help me in being a more refined student leader.

Among such a vast number of students on this campus, there exists the need for each student to be represented to the higher powers and authorities of the State, as well as among

the greater number of Community College students abroad. The Student Government Association of Bakersfield College has been implemented in order to address that need. While there may arise certain issues that cannot be resolved within the short time many students have at this institution due to higher education demands such as graduation, once the plan has been established, there lies the possibility of others to take on that plan and see it to fruition. I do not expect to change the world while I am here, but I do have high expectations for seeing tasks accomplished and the eyes of more individuals opened to a bigger picture. One that truly includes all students and people as members of one race, the human race, helping each other to see our dreams and goals be realized.
