

My name is Nicolas Alberto and I am applying for a position as Senate. Currently, I am a first-year student here at Bakersfield College and plan to become more involved with the institution as time progresses. The students are the ones that see what changes need to take place on campus, and I want to make change happen by running for Senate. My interest in running for this position stems from my aspiration to make a positive impact on the campus whether it is helping other students or trying to improve the college itself. Bakersfield College is drastically expanding and with that, students need to make more of an impact in order for this college to remain exemplary. I feel like I am the right candidate to fill the desires that most students have requested to make their college experience the best possible.

I am qualified for this position due to the fact that I was an active participant in high school clubs and organizations all four years. I have not served in SGA before, though, my participation in previous organizations has enhanced my yearning and ability to be an important asset. Any position in BCSGA requires the ability to be productive, well-rounded, level-headed, and organized. Not only do I feel like my characteristics will be to my advantage, but I do truly care about those surrounding me and how I could assist in making their college lives more memorable. In high school I felt it necessary to speak for the voices that did not want to speak for themselves, and if I attain the position of Senate, I will do the same for my fellow classmates.

BCSGA's primary purpose is to help the student body, and to assist in helping to implement a better campus life. Without a form of government in every aspect of life, nothing would ever be achieved. Student government is a crucial component among every college campus because they are the voice for the common majority needs. Without BCSGA, the life of the Bakersfield College students would not be as great as it is today or can be in the future with continued work. Not only that, but BCSGA is its own family, for the students working in this association create bonds with each other that work for a better future. With that being said, it is important to have an student government association to help many individuals throughout the campus in achieving their goals.
