## B. How did your outcomes assessment results inform your program planning? Use the bullet points below to organize your response.

This is our first AUO so we will use these results in next year's planning.

## C. How do course level student learning outcomes align with program learning outcomes? Instructional programs can combine questions C and D for one response (SLO/PLO/ILO).

**Institutional Learning Outcomes:**

Think: Think critically and evaluate sources and information for validity and usefulness.

Communicate: Communicate effectively in both written and oral forms.

Demonstrate: Demonstrate competency in a field of knowledge or with job-related skills.

Engage: Engage productively in all levels of society – interpersonal, community, the state and the nation, and the world.

**D. How do the program learning outcomes or Administrative Unit Outcomes align with Institutional Learning Outcomes? All Student Affairs and Administrative Services should respond.**

By serving the maximum number of student parents that we are licensed for, we will be helping more parents develop critical thinking, effective communication, and competence in a field of study so they can engage productively in the community, state and nation.

**E. How do you engage in collegial dialog about student learning outcomes?**

We discuss all facets of reaching and maintaining maximum staff and enrollment levels at staff meetings and retreats.

**F. In your previous program review did you specify a major objective or project to implement specifically designed to improve equity?**

**\*How has the objective or project impacted equity in your department or program?**

**\*What areas have you identified for program improvements that relate directly to equity in the coming year?**

This is our first program review so we have not done this before. It is part of our basic mission to utilize experiences and activities that recognize individual family values and cultures.
