Submitter:

Submitter Telephone:

Submitter e-mail:

Funding Source:

- Needs Funding
- Grant
- Department

Please share as many details as possible such as room location(s), need and type of equipment requested. If you have multiple requests, please submit multiple forms.

If you have a cost estimate, that would be helpful, we will contact you for more details.

I am requesting the following other equipment:

Equipment that needs replacing

1. Table Saw

The current table saw is very old and dangerous. The cord to plug it in has exposed wires. There are also no safety features as the machine is very old. A new saw would run around \$1200. To \$1500.

2. Sand Blaster

The current sandblaster does work. A new one would cost around \$1000.

3. Drill Press

The current model is very old. It would be good to get one with modern safety features. This would cost around \$600.

4. Band Saw

The current model is very old. It would be good to have one with modern safety features.

5. We need a new industrial sink trap. The current sink trap attached to the sink is so rusty and old we can't pull it apart to clean it.

6. We need all new chairs for the room the current chairs are a mix of stools and chairs from the 50's- 60's. The room could use a total of 40 new chairs. Prices are around \$60. - \$80. each chair so around so around \$2400. - \$3200.

7. We need steel shelving for storage. There are now multiple sections of Drawing, 2-D design and 3-D design that could use storage. We currently don't have anything for storing supplies or student work. These kinds of shelves are around \$170. To \$200. Each. We could use around 10 of these shelves. That would run around. \$1700. -\$2000.
