- Department

If you have multiple requests, please submit multiple forms.

Please share as many details as possible such as room location(s), type of facilities request, remodel or construction request, safety concern, or furniture request. If you have a cost estimate, that would be helpful, we will contact you for more details.

This is a remodel request and a health and safety concern

The Renegade Room Kitchen needs the addition of the following:

An air curtain at the delivery door. This prevents flying insects from entering the food preparation areas. This will put us in compliance with the Kern County Food Safety Regulations.

Delivery and Cargo Doors All delivery doors leading to the outside shall open outward and be self-closing. Overhead air curtains must be provided where service/delivery doors remain open for an extended period of time and when necessary to exclude insects, dust, dirt, and fumes. [CRFC 114259] The air curtain when installed shall produce a downward and outward air flow not less than three (3) inches thick at the nozzle, with an air velocity of not less than 1600 FPM (feet per minute) across the entire opening at a point three (3) feet above the floor. [State of California, Food and Drug Circular 80-7] When the air curtain is installed outside the building, the same velocity of air needs to be directed straight down over the entire door opening. The air curtain shall turn on automatically when the door is opened. [State of California, Food and Drug Circular 80-7] Figure 3 Air Curtain Large cargo type doors shall not open directly into a food preparation area. Cargo type doors that open into any food warehouse may only be open during deliveries. An overhead air curtain is not a substitute device to permit a door to remain open.

Approximate cost is \$1400.00 plus installation

I am requesting the following facilities need: **air curtain** in the Renegade Room Kitchen
