- **The heater for the small pool is not functioning. The system was supposed to be replaced this summer, but it never got done. The current pool temperature is 76 degrees and that will continue to fall as the weather cools. We have beginning swim classes, community lap swim hours and rental groups that use the pool. We need a new boiler on the small pool immediately. We will not be able to teach our classes without this repair.**
- **New Chair Lift for the pool (the pool is not easily accessible for handicapped students)**
- **New Lane Lines for small pool (Health and safety Concern/I have had multiple students get cut by the sharp edges of the current broken lane lines)**
- **Swim Fins (it will allow me to teach certain strokes and techniques more effectively to my classes).**
- **New Office Chairs and furniture for faculty office.**
- **As per the National Strength and Conditioning Association, we must improve the central air in the Weight Room.**

The NSCA recommends the following:

**Recommended temperature: 72-78 F / 68-72 F**

**Relative humidity should be 60% or less.**

**Air circulation should be at least 8 to 12 air exchanges per hour**

- **Grease board and Ball machine at Tennis courts for instructions purposes.**
- **New Basketball Courts which come down from the walls.**

Please share as many details as possible such as room location(s), need and type of equipment requested. If you have multiple requests, please submit multiple forms.

If you have a cost estimate, that would be helpful, we will contact you for more details.

I am requesting the following other equipment:
