

**ISIT REQUEST 2017:**

Program or Service Unit:

Submitter:

Submitter Telephone:

Submitter e-mail:

Funding Source:

|               |                                     |
|---------------|-------------------------------------|
| Needs Funding | <input checked="" type="checkbox"/> |
| Grant         | <input checked="" type="checkbox"/> |
| Department    | <input type="checkbox"/>            |

If you have multiple requests, please submit multiple forms.

Please share as many details as possible such as room location(s), type of equipment and/or software requested. If you have a cost estimate, that would be helpful, we will contact you for more details.

You will have an opportunity to present your request to the ISIT committee.

I am requesting the following technology or software:

**MS-165 Allied Health Computer Lab**

There is still physical space on the center tables of this computer lab to add at least 2 computers or more (4 would be great) to the lab. The computers would need to meet campus standards with Microsoft Office suite available and connectivity to the Allied Health server where the nursing and radiologic technology software is stored.

Grant Funding: This is a general fund and VTEA/CTE request.

You will have an opportunity to present your request to the ISIT committee.

I am requesting the following technology or software:

**MS-54 Radiologic Technology Classroom**

The new program faculty would like to investigate the installation of a Smart Board or other type of interactive board for use in the classroom in the future. Since the program is submitting a comprehensive 3-year plan, this would be a request for 2018-2020.

Grant Funding: This is a general fund and VTEA/CTE request.

| Needs Funding | <input checked="" type="checkbox"/> |
| Grant         | <input checked="" type="checkbox"/> |
| Department    | <input type="checkbox"/>            |

If you have multiple requests, please submit multiple forms.

Please share as many details as possible such as room location(s), type of equipment and/or software requested. If you have a cost estimate, that would be helpful, we will contact you for more details.

You will have an opportunity to present your request to the ISIT committee.

I am requesting the following technology or software:

**Radiologic Technology Program**

The new faculty would like to investigate cloud storage, with appropriate security measures, to access the Rad Tech Share Drive electronic files from other locations outside of BC. This would facilitate engagement with clinical partners not located on the main BC campus. Since the program is submitting a comprehensive 3-year plan, this would be a request for 2018-2020.

Grant Funding: This is a general fund and VTEA/CTE request.

Submitter:

Submitter Telephone:

Submitter e-mail:

Funding Source:

|               |                                     |
|---------------|-------------------------------------|
| Needs Funding | <input checked="" type="checkbox"/> |
| Grant         | <input checked="" type="checkbox"/> |
| Department    | <input type="checkbox"/>            |

If you have multiple requests, please submit multiple forms.

Please share as many details as possible such as room location(s), type of equipment and/or software requested. If you have a cost estimate, that would be helpful, we will contact you for more details.

You will have an opportunity to present your request to the ISIT committee.

I am requesting the following technology or software:

**Radiologic Technology Program and use in MS-54 and MS-21 X-Ray Lab**

Program faculty would like to purchase and use simulation virtual radiography software for use in both the x-ray lab and classroom. Shaderware software ([www.xrayusa.com](http://www.xrayusa.com) and 541-525-8140) can be loaded on multiple computers with 1 user at a time for an approximate cost of \$5,600 (it is often discounted \$1000 at certain times of the year). A purchase of 2 users would be the minimum request with 4 being optimum. This would accommodate small groups of students to work together and/or separately in the lab setting to advance their critical thinking skills on multiple radiography situations.

In addition, a CT virtual radiography software program would enhance aspects of many courses within the curriculum including sectional anatomy and patient care aspects related to contrast media administration. Approximate cost: \$149 per copy. Minimum number 10.

Grant Funding: This is a general fund and VTEA/CTE request.

**ISIT REQUEST 2017:**

Submitter Telephone:

Submitter e-mail:

Funding Source:

|               |                                     |
|---------------|-------------------------------------|
| Needs Funding | <input checked="" type="checkbox"/> |
| Grant         | <input checked="" type="checkbox"/> |
| Department    | <input type="checkbox"/>            |

If you have multiple requests, please submit multiple forms.

Please share as many details as possible such as room location(s), type of equipment and/or software requested. If you have a cost estimate, that would be helpful, we will contact you for more details.

You will have an opportunity to present your request to the ISIT committee.

I am requesting the following technology or software:

**Radiologic Technology Program and use in MS-54 and MS-21 X-Ray Lab**

New Radiologic Technology plan to flip the classroom and some media would be required for this.  
Could include: cameras for faculty desktop computers (3) and perhaps a swivel camera.

Grant Funding: This is a general fund and VTEA/CTE request.
