

Program Review Assessment Questions related to Technology – 2014-15

In the Annual Update, the assessment questions for technology currently ask this:

1. Has your program received new or repurposed technology in this cycle?
If yes, how has this technology contributed to student success?
If no, how will your new or repurposed technology request contribute to student success?
2. Do you need new or repurposed classroom technology to support student success and/or new office technology to support faculty/staff success? Justify your request.

Kate and I reworded the above to these two proposed new sentences and both are in the new AU form (unless changed by ISIT):

1. How has new or repurposed technology or equipment affected your program in the past year?
2. How will your new or repurposed classroom or office technology or equipment request contribute to student success?

In the comprehensive review, the technology assessment piece looks like this:

1. Has your program received new or repurposed technology in this 3-year cycle?
 - a. If yes, discuss the assessment of its effectiveness as it relates to student, program, or administrative outcomes.
 - b. If no, what technology could play a contributing factor in future student success and outcomes for your program? How would you evaluate the effectiveness of this technology?
2. Discuss the effectiveness of technology used in your area to meet college strategic goals.
3. Does your program need new or repurposed technology to support student success? Justify your ISIT Technology request and your vision for meeting student, program or administrative unit outcomes for this next 3-year cycle.
