Process and Priorities

- Proposed changes to Program Review – Kate Pluta, Co-Chair Accreditation Steering Committee (ASC) – Kate reviewed draft 12 of the proposed Annual Program Review, draft nine of the Integrated Program Review and the Senate proposal for change for program review (see attached). Proposals have been presented to Academic Senate, College Council, FCDC, Curriculum and the Budget Committees.
  - Discussed composition of the PRC membership. Specifying areas of representation provides campus-wide coverage and will help ensure balance. Areas of representation will be recommended for administrative and classified staff. The proposed composition was revised for presentation to Academic Senate on May 4, 2011 (see attached).
  - All unit plans will come to PRC to be reviewed in the fall semester. Committee will synthesize common themes and issues. Faculty requests will be part of the review. Discussion ensued about informational flow from PRC to FCDC. Ann will provide examples of rubrics used for this purpose to ASC and PRC.
  - Integrated program review will be planned in spring 2012 for implementation in spring 2013. Thematic responses from the annual review may provide focus for the integrated reviews to come. Possible program clusters may include Basic Skills, General Education/Transfer, Student Services, Administrative Services and Career and Technical Education.

- PRC Purpose and procedures document change was approved by Academic Senate in the 4/13/11 meeting and has been passed to College President.
- Diana advised members she has not applied for the co-chair position of PRC for 2011-2013.
- Process completion chart – Reviewed the status of programs in progress and discussed how to wrap up the cycles that are not complete. Committee decided to create a letter to programs advising them of the status of program review and options that are available to them including a final presentation to College Council. Rachel and Diana will work on the letter.
- Accreditation documents – Recommendations 1 and 4 were discussed. Members were advised to read these documents to understand why the new processes for program review are being proposed.
