---

Good Afternoon,

These potential operational grants were provided to Gary (DO-IT) and John Means (DO-Ed Services) for review. Gary and his team researched these opportunities and made the below recommendation.

*“This company has a very poor reputation in our industry for their work and “offers”. I had looked at them few years ago on a possible portal for us and didn’t like how they went about their work, etc. If fortunately didn’t move into a long term arrangement. They are mainly an overseas company and I believe to be part of the challenge. Also one of my Directors used Campus EAI at his previous job and shared they were really incompetent. Based on my research and input from other I would rather pass on this”.*  
- Gary

Thanks,

Arlitha

Good Morning,

There are several upcoming grant opportunities listed below. During these difficult fiscal times, we do want to miss any possible opportunities. Please review and I will schedule a time for us to discuss.

Thanks,

**Arlitha Harmon, Ph.D.**

There are a couple of interesting grants in that list. In particular the Chatbot, since we want to expand it. Also the student the engagement grant. We would need to know if any match is required. A conversation with IT and Student Services would be necessary. We need to consider which technology may need district support as well.

Let's call the "Grants Committee" to look into it. I think Arlitha is part of it.

Thoughts?

Dr. Claudia Habib

Porterville College President

Are we applying for these grants? Are there already leads on campus?

Michelle
