Subject: Renegamers SOF Grant

Attached is the catering proposal for the Super Smash Bros. Tournament. We are applying for a Programming SOF grant as this will be made available to all students. Only 24 students will be able to actually compete (chosen on first come first serve basis and punctuality for signing in at the event). Other students can observe and purchase food. We anticipate only charging \$2 for food which is a loss of \$ 1.29 compared to the catering proposal, thus we are asking for SGA funding.

We are waiting for the receipts from Campus Gamers CSUB to present the expenses for a finalized total. We are estimating a total of \$200 added to the catering proposal. The tentative total requested is \$357.98

If Campus Gamers has not given us their receipts by the time of the presentation, we will only request coverage for the catering proposal. You should have received an email from Professor Thomas Rush in re:advisor statement.

Please advise if there is anything further we need to provide.
