Letter of Intent BSGA

To whom it may concern,

My name is Shoshanna Kukuliev and I am writing to apply for the position of Parliamentarian for the BSGA at Bakersfield College.

I am interested in this position because I believe that I have the necessary experience to perform the duties required of this position. Having served as a Senator for the Student Senate of California Community Colleges, I was exposed to many workshop on Roberts rules and the Brown Act. I have a good understanding of the two and part of my job was to give presentation on them. In addition, I have read and edited constitutions for local, regional and state organizations. I believe my understanding of parliamentary procedure will be a huge advance for this position.

Furthermore, I have experience working with student government on a local level. I held the position of president and student trustee over the 2 years I attended Taft College. Those positions gave me skills that I cherish today. It taught me how to represent and voice the students needs, act as a leader for students, and how to organize events beneficial to students. Being student trustee also taught me a lot about what goes into improving and sustaining the college.

Student Government is present on campus to be a voice for the students, even if they don't know that SGA exists. Students who run student government are there to keep all the constituents in mind when trying to make our college a better place. Student Government is a place where students can make a difference in various areas around campus, and can bring actual change to the college.
