

Spring 2016 Enrollments

How do your college's Spring enrollments look?

Question was asked on January 17, 2016

College	Start date	Sp16 enrollments	Sp16 headcount	Other comments
Napa Valley College	1/20/16	Down 6%	Down 2.9%	Sp15 compared to Sp14 enrollments were down by 2.7% and headcount down by 2.9%
Cerritos College		Down 8%		increase of 4% last year and our fall was up 3%
Mt. SAC		Down 3.5%		Winter was up 2.5%
Ventura College	1/11/16	Down 2.5%		
Moorpark College		Down 2-3%		Down about 2% in units FTES
Santa Rosa JC		Santa Rosa Campus up a bit. Petaluma Campus also up a bit.		By the end of the recession we had cut classes by 25% (including non-credit, older adults by 100 %, etc.) The first year after we added 10% back into the schedule and grew about 1.5%. The next year schedule growth 5% and enrollment flat. Last year added 3% and flat or up maybe 1/2%. Biggest losses are at Petaluma Campus - down 5-8% each semester even if on-line. Suspect the repeat policy change (we had a large contingent of community members taking classes) plus full employment are hurting us.
Palomar College		Projecting less than 2% down		Down about 4.5% in the fall 15. Summer was even from year to year.
College of Marin		Up 3.5%		
LA Pierce	~ 2/8/16	Down 6%	Down 3%	
San Joaquin Delta College	1/20/16	Down 4.0% in units/expected FTES	down 1.6%	Local economy's up-turn is not helping our enrollment. Next year I expect even worse with the BOG fee waiver disappearing for probation students. The fiscal expectations coming out of the Governor's budget are fairy tale stuff. 2%

				growth? .47% COLA? No base funding increase to cover operational costs tied to PERS/STRS/Medical Benefits?
Irvine Valley College	1/19/16		Up 4%	Up 4.1% in WSCH. IVC's service area serves K-12 districts that still have growing high school enrollments. Fall 2015, however, was flat.
Shasta College		up a bit in enrollments		
Monterey Peninsula College	2/1/16	Same as Spring 2014		
Coastline	Sometime in February			Up 2% in FTES.
Santa Barbara City College			Down 4.87% in headcount	
Foothill College	1/4/16	Down 1.87%		
De Anza College	1/4/16	Down 0.93%		
Canada College		Flat	Flat	On most indicators (productivity, headcount, enrollment, FTES, etc) Cañada college is flat or nearly flat. One indicator with a major change is a 5% plus drop in section count.
Allan Hancock College	1/25/16			At Allan Hancock, we are flat at the moment. Classes begin Monday so we will see how things progress going forward.
San Jose City College	2/1/16		Up 2%	FTES down 4%
Chabot College		flat	up	
Sierra College		Down 1.6%	flat	Last spring was down 2.2%. We've added concurrent enrollment and this spring are adding portable Chem and Bio labs and classrooms to try to address the bottleneck in those areas but our centers in Grass Valley and Truckee continue to pull us down.
