Teaching 'n' Technology Summer Institute
May 22nd – May 25th, 2017 (four days)

It's like summer camp without the mosquitos!
We'll have projects for you to work on, stories told around a virtual campfire, short trips, games, and s'more!
Listen to what former participants have said in this YouTube video.

This is a free hands-on workshop focusing on instructional uses for a variety of technology tools including audio, video, screencasting, Canvas, open educational resources, mobile apps, and more. Participants who complete the entire 4-day workshop will receive a certificate and might be eligible for 1 unit toward salary advancement. (Please check with your division chair or dean regarding salary advancement eligibility.)

Here's what past participants have said:

- *"I was very impressed with all aspects of this workshop."*
- *"I was also glad to have met some of the faculty. It was wonderful to have been part of such a great group of colleagues."*

- *"I was surprised at just how many new programs and apps exist that can make so many of my tasks as an instructor easier."*
- *"Every topic that was presented was new to me."*

<mark>**To register for this 4 day workshop, send an email to sphinney@portervillecollege.edu**
There is limited seating so please don't wait.</mark>

TNT Workshop Summary:
The workshop is designed as a broad survey of technologies that can be incorporated into instruction. It is not realistic to expect to become an expert with any individual technology within the week. Rather, participants should expect to receive introductory exposure to a vast array of technology tools, thus giving them a reference point from which to venture forth and begin their individual explorations. Each participant will work on an individual project as the week progresses. Projects will be showcased at the end, so everyone can learn from each other and offer suggestions for future iterations.

Participants will come from both Bakersfield and Porterville College. This is an excellent opportunity to learn from a wide spectrum of faculty in various disciplines. The Workshop will take place at the BC campus on two days and at the PC campus on the other two days, so travel will be required. Participants are responsible for their own transportation. Lunch will be provided.

Topics to be covered include (subject to change):
- Digital images
- Audio
- Video
- Screencasting
- Accessibility
- Copyright
- Web tools
- Mobile tools
- Canvas
- CCCConfer
- Open educational resources

Facilitators:
- Sarah Phinney, M.Ed. – Porterville College, Educational Media Design Specialist
- Tracy Lovelace – Bakersfield College, Educational Media Design Specialist

Days, Times, and Locations (Note-You must attend all days):
- Monday, May 22, 9:00 a.m. – 3:00 p.m. (Porterville College)
- Tuesday, May 23, 9:00 a.m. – 3:00 p.m. (Bakersfield College)
- Wednesday, May 24, 9:00 a.m. – 3:00 p.m. (Porterville College)
- Thursday, May 25, 9:00 a.m. – 3:00 p.m. (Bakersfield College)

Homework:
- Homework will be assigned each night. Participants are expected to complete the work prior to each day's meeting. Most of the homework should be able to be completed in 90 minutes or less. Some participants also decide to do some of the work on their projects outside of the workshop hours, although time is allotted during the workshop for participants to work on projects.
