Assessment Report to Academic Senate

October 25, 2023 | Becka Zepeda, Faculty Co-Chair

1. Assessment's last meeting was October 20th.
    - We voted to approve the ILO #3 report for publication. This report is now available on the [Institutional Learning Outcome Assessment](#) page.
        - [Tableau](#) data shows that the average percentage of students that met or exceeded expectations in courses mapped to ILO 3 from 2018-2022 is 86%.
        - Of the 19 artifacts submitted, all met or exceeded expectations in asking students to demonstrate competency in a job-related skill or in a field of knowledge.
        - Based on this quantitative and qualitative data, the assessment committee found that Bakersfield College meets expectations for ILO #3: Demonstrate
    - We determined that we will assess ILO #1: Think during the 2023-2024 year.
2. Assessment had a discussion regarding a concern AIQ had with courses with C-ID and their SLOs. Faculty in that committee were concerned that accreditation would be affected if SLOs did not match the C-ID statement word for word. We clarified that only objectives need to match C-ID, and we, as BC, have control over the verbiage of our SLOs and can continue to keep our standards of using active verbs on the top 4 levels of Bloom's Taxonomy.
