

Report on BC Early College (formerly Dual Enrollment) 10/25/23

- Over the summer, Early College offered numerous orientation sessions for new teachers who were going to be teaching early college courses. BC hosted a face-to-face convening on campus in August that was attended by college personnel including Faculty Chairs, Early College Faculty Mentors, Early College instructors and high school administrators. We had breakout sessions providing education and time was allotted for instructors to meet with the BC mentors.
- We have monthly Early College Faculty Mentor meetings with Tyler Thoms and other Early College personnel to discuss concerns.
- There is an Early College Faculty Support Canvas course. The mentors and the Early College instructors are enrolled in the course. The course is a resource for communication, collection of syllabi, evaluation documents, updated contact information, etc.
- Mentors and Faculty Chairs are in the midst of completing this semester's course evaluations.
