**Shortfall explanation:**

The CTE Program Manager position remains vacant and the 3<sup>rd</sup> CTE Educational Advisor position was vacant for two out of the three months. BC is going to begin offering an Ag Business and Ag Mechanics degree. In order to successfully offer these degrees in a format that is current with the industry standard, we need to purchase industry-specific materials for the courses. The courses are being finalized now, so the purchases couldn't be made until the courses were set. The purchases will be made this quarter.
