

Letter of Intent:

My name is Victoria Lennon and I am interested in this position because I know that students need help in developing and maintaining organizations on our campus. Bakersfield College is primarily a commuter school with the majority of students traveling to campus. I feel that as a student government official that I can make a difference in helping to create a more “Campus Centered Feel and Life” for the students. Students need to feel like they are a part of this campus, and not detached from the student body because they commute. The process of creating this type of hospitality begins and ends with student organizations.

Every organization on campus is important and each group needs a fighting chance to survive. I will be the conduit in the gap that helps to make this happen. I want to assist organizations by managing the budget, and overseeing the operations of Student Organization Funding Grants. Money is very important in the success of every organization and having a person with a background in money ensures that we will get the job done.

I have lived under a father who was a financial advisor. Learning to budget, and knowing the importance of living within my means is an important aspect of financial stability. I have also learned how to raise capital and for the past 3 summers my track team and I have managed to raise over \$10,000.00 to run in the Junior Olympic National and Regional Series. I know that I am the woman for this job. I bring discipline mentally and physically into everything that I do. Mentally, I managed to maintain a 4.0 GPA in High School and a 3.5 GPA here at Bakersfield College. I bring discipline physically, by participating in the sport of track & field for the past 8 years, staying drug and alcohol free, and by maintaining a very healthy diet. The discipline that I bring to my academics and track & field, will be a catalyst in helping me bring discipline and hard work to this position.

I want this position simply because I want to help make Bakersfield College the best Community College in America.

Victoria Lennon
