

# Letter of Intent

---

My name is Manuel Zavala, and I enjoy serving my community. I have been a Senator for the Bakersfield College Student Government Association before, and I have enjoyed making connections between students, staff, and administration. I became a Senator in Spring 2015 and since then I have accumulated skills and connections to know who to talk to for many issues. Without the Student Government Association, Bakersfield College administration and staff would not have student's opinions that could possibly affect them and I would like to continue to speak for the student body. As Director of Finance I would be allowed to continue the betterment communication abilities with constituents and faculty as well as, improving my accounting skill that I acquired when being President of the Hispanic Organization Promoting Engineering and Science (HOPES Club).
