Subject: Nomination for Director of Public Relations

*I nominate Moises Camarena for the position of Manager for Legislative Affairs. Moises is a person who is very ambitious for all the right reasons and is prepared to get into action, as I have met with him previously he has spoken of his eagerness for experience and the involvement within Student Government. The atmosphere of the Student Government was gratifying enough that encouraged his decision of becoming part of our association bringing new formidable ideas and viewpoints from different parts of our College. He is very friendly and mellow making him a fair person to take the position that he has applied for due to his knowledge of politics in different countries as well as the atmosphere of how governments work making him more plausible for the Legislative Manager position. Senate, please consider his application for this position. Thank you.*
