

#### BCSGA Letter of Intent:

I wish to be a part of BCSGA because I want to have a voice on campus and be a voice for other students. I have been on the BC campus for almost 3 semesters and I have 3 semesters more to go. I have seen various sides of campus and various stories from students. I wish to be helpful and work hard so other students don't have to.

I feel qualified to be in this position because I have leadership experience. I was a captain of a team in high school for one year. Now I've been coaching for 3 years and it has taught me a lot about being a leader and being a stepping stone to others. I am also responsible and dependable. I have worked with a booster club at a local high school to raise money for scholarships and sports. This required me to handle money and transactions. In order to do these things I have to be honest, dependable and trustworthy.

Bakersfield has a student government to help with so many things. The students are the ultimate judge of how things are run on campus. They determine if the money paid in their education was money well spent. They also are up close and personal with the problems that can arise on campus. This makes it easier to see what problems need to be fixed and suggestions for how to fix them.

I will bring a different outlook and a friendly environment to the BC community. I am unlike several students at BC and so I may have different problems that are encountered; as well as how to solve these problems that will benefit students as a whole.
