

Emily Urias

Letter of Intent

1. I am interested in this position because I want gravitate students to become more interactive with other students outside of class and become more involved at campus. I believe when you create hands on activities at campus it encourages students to become more interested in other programs at Bakersfield College, the more students we have involved on campus the stronger and more influential our school can become.
2. I have to skill to stay on task and avoid distractions, I like to get my tasks done precisely. I do well at compromising, though I have my own ideas for things such as an event, I am willing to hear other of my peers' ideas or input of what they think could help make it more exciting or interesting. I can effectively communicate with others, I believe it is important to discuss about what task need to be completed but also check on how my peers are doing with their personal well-being. I am an active listener, I make sure to always pay attention what the speaker is saying so I can accurately retain the information being told to me.
3. We have student government at Bakersfield College so it can teach students about how it is like to run an organization. Most importantly, student government on campus allows us students to have a voice in democracy such as money spending in the college, issues around campus, and provide development for leadership.
